V. V. GIRI,  
*President.*

*Joint Secy. to the Govt. of India.*

*Reasons for the enactment*

Under the Hooghly River Bridge Act, 1969, the Hooghly River Bridge Commissioners are to construct a high-level bridge across the river Hooghly along with the necessary approaches to such bridge. The approaches on the eastern side of the Hooghly fall within Calcutta and those on the western side within the Howrah Municipality. The Board of Trustees for the improvement of Calcutta and the Board of Trustees for the improvement of Howrah both possess considerable skill and experience and highly trained personnel necessary for the execution of works for the improvement and development of the areas within their respective jurisdictions. For a smooth and efficient execution of the Bridge project, the Hooghly River Bridge Commissioners may like to draw upon the skill, experience and resources of the Boards by entrusting them with the construction of the approaches to the bridge. But neither the Calcutta Improvement Act, 1911, nor the Howrah Improvement Act, 1956 provides for a situation where the Board constituted under its provisions can undertake execution of works as an agent of any statutory authority. It is, therefore, felt that a provision should be made in each of these Acts to enable each Board to undertake, with the previous sanction of the State Government, the execution of any works in any area within its jurisdiction on behalf of any person on such terms and conditions as may be agreed upon between the Board and such person.

2. The Committee constituted under the proviso to sub-section (2) of section 3 of the West Bengal State Legislature (Delegation of Powers) Act, 1970 (17 of 1970), has been consulted before the enactment of this measure as a President's Act.

(1) Where it appears to the prescribed authority that in view of the unhealthy, unhygienic, insanitary and congested conditions existing in a slum area, it is not expedient to carry out works of improvement in pursuance of the improvement schemes prepared under this Act for such slum area without redeveloping that area after demolishing the huts and other structures thereon, it may prepare a scheme, to be known as a "Slum Clearance and Redevelopment Scheme" and publish a copy thereof in such manner as may be prescribed inviting suggestions and objections.

(4) Where a Scheme is sanctioned under sub-section (3), the State Government may, on the recommendation of the prescribed authority, by order published in the Official Gazette, suspend, to such extent only as may be necessary for the proper carrying out of the Scheme, any rule, bye-law, regulation, notification or order made or issued under any law for the time being in force which the Legislature of the State is competent to make.

14. (1) Where the State Government is of opinion that for the purpose of carrying out any Slum Clearance and Redevelopment Scheme sanctioned under this Act, it is necessary to acquire any land or any other immovable property within, adjoining or surrounded by, any slum area, it may, by a notice published in the Official Gazette and by such other manner as may be prescribed, acquire such land or immovable property with effect from such date as may be specified in the notice.

*Reasons for the enactment*

The rapid growth of population and overcrowding have created bad slums in the whole of the State of West Bengal and particularly in the cities of Calcutta and Howrah. The average density of population in these two cities has gone up considerably in recent years. The common features of these slum areas are mainly dilapidated conditions of tenements, lack of civic amenities and community facilities. The continued existence of such slums is a menace to the safety, health and morals of the inhabitants and it is of imperative necessity that improvements in, and clearance of, the slum areas have to be taken in hand immediately. The Government of West Bengal has not been able to effectively tackle the problem as the provisions of the Calcutta Slum Clearance and Rehabilitation of Slum Dwellings Act, 1958, are not considered to be adequate for carrying out slum clearance and other improvement measures. It is, therefore, considered necessary that a comprehensive Slum Improvement and Clearance Act should be enacted under which Government should have the requisite powers for carrying out improvements in a slum area, clearance of slums and, if required, for the redevelopment of slum areas.

2. It is also necessary, for the purpose of carrying out improvements in a slum area, that the Government should have power to acquire any land or other immovable property, or to acquire the right of user in respect of any land, on payment of compensation. A certain percentage of the compensation shall be paid in cash and the balance thereof shall be paid either in cash or in bonds, at the option of the owner of the property which has been acquired.

3. Since the earlier Act is applicable to the area sought to be covered by the present Act, a provision has been made to the effect that so long as the present Act is applicable to an area, the provisions of other enactments, which are inconsistent with the provisions of the present Act, shall remain suspended in that area.

4. The Committee constituted under the proviso to sub-section (2) of section 3 of the West Bengal State Legislature (Delegation of powers) Act, 1970 (17 of 1970), has been consulted before the enactment of this measure as a President's Act.
